

JONATHAN NWACHUKU OKECHUKWU

DATA ANALYST | SQL / POSTGRESQL | CUSTOMER SUPPORT

08076912602 | 09052556963 | technathe@gmail.com | Abuja, Nigeria

PROFESSIONAL SUMMARY

Detail-oriented Cyber Security Science graduate with **1 year of data analysis experience using PostgreSQL at TSZ Analytics** and **1 year of experience using LibreOffice Calc** for data organization, analysis and reporting. Currently working as a **Customer Support Service Representative at Galaxy Backbone** with 5 months of professional experience in customer service, troubleshooting, issue resolution and communication. Holds a **Bachelor of Technology (B.Tech) in Cyber Security Science**, graduated in 2025. Seeking opportunities in Data Analysis, Business Intelligence, SQL/Data or related technology roles.

PROFESSIONAL EXPERIENCE

TSZ ANALYTICS

Data Analyst | 1 Year

- Analyzed datasets using PostgreSQL to generate meaningful insights.
- Wrote SQL queries to retrieve, filter, sort and manipulate data.
- Performed data cleaning and preparation for analysis.
- Organized and managed datasets using PostgreSQL.
- Used SQL functions to aggregate and analyze information.
- Identified trends and patterns within datasets.
- Prepared analytical reports based on data findings.
- Checked datasets for accuracy and consistency.

GALAXY BACKBONE

Customer Support Service Representative | 5 Months – Present

- Respond to customer inquiries and provide professional assistance.
- Handle customer complaints and service-related issues.
- Troubleshoot customer problems and provide appropriate solutions.
- Escalate complex issues to the appropriate department when necessary.
- Maintain accurate records of customer interactions and service requests.
- Communicate effectively with customers and colleagues.
- Work with team members to resolve customer issues efficiently.

LIBREOFFICE CALC

Data Analysis & Spreadsheet Experience | 1 Year

- Used LibreOffice Calc to organize, manage and analyze datasets.
- Created and maintained structured spreadsheets using formulas and functions.
- Sorted and filtered datasets to identify relevant information.
- Cleaned and organized raw data before analysis.
- Created tables and charts to present information clearly.
- Prepared reports using spreadsheet data while maintaining accuracy.

EDUCATION

Federal University of Technology, Minna

2025

Bachelor of Technology (B.Tech) — Cyber Security Science

TECHNICAL SKILLS

Database & SQL	PostgreSQL, SQL queries, data manipulation, aggregation
Data Analysis	Data cleaning, data organization, analysis, reporting, interpretation

Spreadsheet	LibreOffice Calc, formulas, functions, sorting, filtering, tables, charts
Customer Support	Customer service, troubleshooting, complaint resolution, communication
Professional	Problem solving, analytical thinking, attention to detail, teamwork, adaptability

ACADEMIC PROJECT

Comparative Analysis of Machine Learning Algorithms for Intrusion Detection

- Researched and compared machine learning algorithms used in intrusion detection.
- Examined the application of machine learning techniques in cybersecurity.
- Analyzed the effectiveness of different algorithms for identifying potential network threats.
- Evaluated findings and presented recommendations based on the comparative analysis.
